

Contract No. BA-1832
31 August 1959

APPENDIX I

Period 1 July 1959 - 30 June 1960

Item No. Description:Price

1. The Contractor shall furnish and supply to the Government the services of one (1) full time technical field engineer to install, maintain and service Baird-Atomic Type 5111 Periscopic Sextants at the following rates:

PCS - Foreign, per man-month
PCS - Domestic, per man-month

25X1

2. It is anticipated that only one (1) engineer will be required during the term of this contract; however, the Contractor agrees to furnish additional field engineers for short term service upon reasonable notice from the Contracting Officer at the following rates:

TDY - Foreign, per man-day
TDY - Foreign, per man-hour
TDY - Domestic, per man-day
TDY - Domestic, per man-hour

25X1

3. In the event (1) that more than one (1) full time engineer be required during the term of this contract, or (2) that the Contractor must replace the one (1) full time engineer, training, if necessary, shall be furnished at the following rate:

In-Plant Training, per man-month

25X1

4. In the event the Contractor terminates the services of a technical field engineer due to fault of said engineer and does not pay him an overseas completion differential, the Contractor shall adjust its charge for the service performed hereunder by the engineer to the following rate per man-month:

PCS - Foreign (without overseas completion differential)

25X1

The Contractor shall be paid the applicable rates (depending on assignment) for Contractor personnel provided hereunder while such

personnel are at work sites, in transit to or from different work sites, and to or from work site and plant.

Transportation which is essential to the accomplishment of required services shall be an allowable charge. Transportation allowances shall be made for Contractor personnel and their baggage and equipment from the Contractor's plant to the site of work, at the site of work while on official business, between sites of work and return to the Contractor's plant. Transportation, where feasible, shall be provided by the Government.

In cases where the Government does not provide such essential transportation and the Contractor furnishes the necessary transportation, this expense shall be an allowable item of reimbursement.

Contractor personnel shall be available for re-assignment within the continental United States or overseas upon receipt of reasonable notice by the Contractor from the Contracting Officer.

The rates are based on a normal 40-hour work week (8 hours per day, 5 days per week). The field engineers shall adjust their schedules to maintain a 40-hour work week. The understanding shall be, however, that the field representatives are on call 24 hours per day.

The man-month rates provide that the Government release field representatives from duty on the following eight holidays: New Year's, Washington's Birthday, Memorial Day, Fourth of July, Labor Day, Thanksgiving, Christmas, and one additional holiday to be designated by Baird-Atomic, Inc. The rates also provide that the Government be billed for the holidays, sick leave not to exceed one week and the annual two-weeks' vacation, since the overhead rate does not include provisions for vacations, sickness or holidays.

The Contractor shall in submitting his monthly billing against this contract show detailed schedules of charges by category (i.e., PCS-Foreign, Training, Transportation, & PCS Domestic, etc.). Also, the Contractor shall attach a certificate of service similar in contents to Exhibit A which is attached hereto.

The length of time each engineer or technician has been assigned at an overseas base or bases under Contract No. BA-732 shall be counted under this contract for the purpose of computing the 18 months' overseas tour of duty period and payment of the lump sum overseas completion differential contemplated in Paragraph 4d in Appendix "A" of Contract No. BA-732.

The Contractor agrees to pay each of its technicians completing 12 months' tours of duty at an assigned overseas base, or bases,

under this Contract No. BA-1832 a lump sum overseas completion differential comprising approximately 25% of the technicians base annual salary. It is understood and agreed however, that for the purpose of the lump sum overseas completion differential hereunder, a technicians 12 month's tour of duty under this Contract No. BA-1832 shall run successively to and not concurrently with the 18 months' overseas tour of duty, if any, referred to above.

Contractor technicians completing less than 12 months' overseas tours of duty under this contract by reason of termination of this contract for the convenience of the Government or other good cause shall be paid a prorata share of the overseas completion differential.
